

PROJECT EXPERIENCE

Cleveland Clinic Edwin Shaw Rehabilitation Hospital

Owner: Cleveland Clinic / Select Medical
Project Delivery: New Rehabilitation Hospital
General Contractor: Brasfield - Gorrie
Construction Square Footage: 75,000 Sq Ft
Project Manager: Mike Davis
Location: Bath, Ohio

Completed in 2017, the new 75,000 square feet, 60-bed Cleveland Clinic Edwin Shaw Rehabilitation Hospital cares for patients recovering from stroke, spinal cord injury, brain injury, amputation, neurological disorders, and orthopedic conditions. Located in Bath, this facility is the third of its kind to be jointly operated by Cleveland Clinic and Select Medical. The hospital also has two gyms for physical therapy and a room set up like an apartment so patients can learn how to readjust to life at home.

Hilscher-Clarke was hired by Brasfield-Gorrie to install the electrical portion of the project. Installations included: power distribution for normal power system, backup generator, emergency power system, equipment power system, life safety power system, site lighting, interior lighting, lighting controls, and fire alarm. Pre-fabrication was utilized on this project to minimize costs.
