

PROJECT EXPERIENCE

The Ohio State University Wooster Campus Science Building

Owner: The Ohio State University
Project Delivery: New Science Building
Square Footage: 60,000 Sq Ft
General Contractor: Elford, Inc.
Project Manager: Alex Kaglic
Location: Wooster, Ohio
Duration: 15 Months (Completion May 2020)

Located on Ohio State University's Wooster Campus, the new Science Building will be home to undergraduate and graduate classes, as well as the Department of Entomology. Along with laboratory, classroom, lecture, and office space, the new facility will also feature: an entomology research unit, a bug zoo, a cafe, and a patio.

Hilscher-Clarke was chosen to install the electrical and communications, which includes the installation of a generator, vehicle charging station, fire alarm, distribution, lighting fixtures, lighting controls, and site lighting.
