

Project Experience

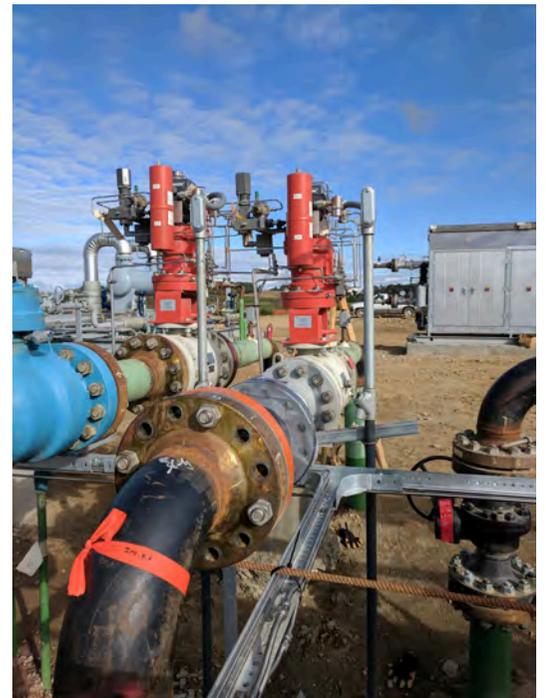

Rover Compressor Station CS-2

Project Cost: \$516,620

Project Manager: Bill Habyan

Hilscher-Clarke was the electrical contractor that performed all aspects of installing the electrical, controls, communications, main power, and instrumentation / tubing for the entire job site. We also performed the point to point testing and Meggering of all cables. We also installed a grounding grid, cathodic protection, and all heat trace.

Proven. Reliable. Sensible.
